EXPERIENCE

Vendito Corp

Oct 2024– Present

Full Stack Developer - II

(Full-time)

- Built a full-stack multivendor eCommerce platform (web + admin panel + PoS) from scratch using Laravel and Nuxt, supporting vendor onboarding, role based operations, & order management.
- Developed secure, scalable REST APIs consumed by both web and mobile apps.
- Integrated real-time messaging using Pusher Channels for smooth buyer–seller communication.
- Led payment gateway integrations and Implemented Twilio-based 2FA and phone auth.

Full Stack Developer

Mar 2024 – Oct 2024

(Part-time)

- Developed ecommerce website tailored to client vision with Nuxt, Tailwind migrating from WordPress
- Created REST & GraphQL APIs with Laravel, as well as designed optimized relational DB architectures.
- Worked on PoC & internal projects with WordPress – WooCommerce API – GraphQL.

TechGrowth

Feb 2023 – Sept 2024

Full Stack Developer & QA Officer

(Full-time)

- Built and maintained 20+ websites using React, Laravel, Express and modern web technologies.
- Developed booking systems, custom CMS platforms, and improved client SEO by ~65%.
- Integrated payment gateways, built APIs for mobile apps, and worked on RAG based AI chatbot/ML projects.
- Created and refactored Shopify sites using Liquid and custom middleware with Shopify APIs.
- Led QA efforts, wrote technical documents, and delivered training; tracked bugs via Jira & Sentry.

Frontend Developer & QC Officer

Aug 2022 – Jan 2023

(Part-time)

- Delivered high-priority UI features under rapid release cycles, translating design from Zeplin & Figma
- Designed edge case test scenarios, wrote bug reports,, ensuring high stability before handoffs.
- Built functional UI prototypes and live mockups for experimental IT solutions, helping the business pitch and validate concepts with non-technical stakeholders.

Limae

Aug 2024 – Sept 2024

Shopify Developer

(Part-time)

- Customized Shopify themes and built dynamic sections using Liquid and JavaScript.
- Integrated third-party apps and resolved frontend bugs to enhance store functionality and UX
- Handled internationalization (currency, IP blocker, Arabic menu fixes). – Integrated Klaviyo for marketing & SEO: updated meta info & Google Search Console set.
